

**A BIBLIOGRAPHY OF ADMINISTRATIVE  
AND TECHNICAL COMMUNICATION IN CANADA: PART II**

Jennifer J. Connor

The following list includes sources compiled since the publication of a bibliography in Technostyle 4(Spring 1985):20-35. Specifically, it provides a wider coverage of professional periodicals in fields such as business, accounting, and medicine, and it completes an index of Technostyle to 1985. Like the earlier bibliography, this one includes a few general items on writing and grammar for reference; and, consistent with the earlier collection policy, this list includes works which were written by or for Canadians, but which themselves may not be overtly Canadian in content. Both bibliographies should be consulted together for completeness. For further information on works published in French, readers should consult Joan E. Pavelich's bibliography in Technostyle 1(Summer 1982):13-16.
